Re: Breast Density Legislation Bill SB 879

Dear Senator Marleau:

I fully support SB 879 which provides that individuals be notified of the presence of dense breast tissue as a result of their mammogram results. My paternal aunt died from breast cancer and I have friends who have lost their mothers from breast cancer. Bill SB 879 will provide information to individuals that could save their lives if they are found to have dense breast tissue.

Your support of SB 879 will contribute to the continuing efforts to effectively treat breast cancer and continue to lower the numbers of those whose lives are lost because of it.

Sincerely,
